

KATCHEY FOR OIL & GAS

What we do

For over two decades Katchey has actively supported upstream and downstream activities in the oil & gas sector by providing companies with complex research, testing, quality control and compliance solutions that ensure proper decisions, help these companies avoid risks and maintain standards for production inputs, and market bound products.

Major Reference Projects

Chemicals Testing Laboratory Design & Development for Tier-1 Oil Major

Flow Station Diesel & Lubes Testing Facility for a Major Downstream brand

Tank Farm Test Lab for a Fuel Distribution Hub

Aviation Energy Services Mobile Quality Assurance Solution

Katchey Solutions for Oil and Gas

Quality Assurance

We provide testing and analytical services on a 24/7 basis, conforming to industry and regulatory standards in which the sector/industry operates, offering quality assurance (QA) and quality control (QC) testing to comprehensive research and development (R&D) operations.

Capacity Building

Our training services portfolio is designed to rapidly equip and certify end users, as well as other forms of learners using practice-led teaching methodologies for knowledge transfer.

Benchmarking

Katchey provides reference standards for production chemicals and other inputs that the Oil & gas Industry uses at different stages of exploratory or production activities.

Health & Safety

Katchey provides a portfolio of Health & safety products that support the safe production and safe operation initiatives of many upstream and downstream production organizations. From specialized PPE to protocol guidelines that can be implemented to guide the safe operation of labs and chemical deployment environments in this industry.

Supply Chain Services

Katchey provides industrial class procurement and logistics management services for the Oil & gas sector. Our deep expertise in finding specialized chemicals and other drilling components, plus our extensive network of logistics partners means we can deliver solutions for the complex operating environments characteristic of upstream and downstream production related activities.

Community Relations

We help Oil & Gas organizations implementing social change and social investment initiatives by doing turnkey projects in Healthcare and Education, thus improving such organizations relationships with their host communities. Katchey has built science laboratories for schools as well as healthcare testing laboratories for rural clinics and hospitals to support major players in this industry.

INDEPENDENT ANALYTICAL LABORATORIES SERVICES

With katchey's Independent Analytical Laboratory Services, You don't need to own a lab to enjoy world class testing services

Katchey independent analytical laboratory services provide a full range of world-class laboratory services for when your organization has no dedicated laboratory or simply needs to conduct research and tests for quality assurance or validation. We maintain ultra modern digital laboratory complex that offers the full range of equipment and personnel to conduct consistently accurate laboratory tests.

KLL is equipped with latest technology like:
HPLC/ UHPLC, ICP-MS, GC-MS, FTIR, AA, Spectrophotometer, RT-PCR, Genetic Analyzer.
